I'm a Fullstack web developer with more than 10 years of experience working with the web. I'm focused in PHP development but I do know how to write Python and a little bit of C#. By my experience in frontend development and thanks to the continuous work with many designers I have skills in UI and UX. I have knowledge in Linux Server management: LAMP or different environments.

Most used tools: PHPstorm, Sublime Text, Inkscape, SSH, Apache, Nginx, Gimp, Terminator, Bitbucket, GitHub.

Current Machine: AMD FX4170, 8Gb RAM HyperX Kingston, Nvidia GT730, Archlinux / Windows 10, Gnome.
